

Virtual Workshops

By Learning Point Group

Learning Point now provides powerful resources to help you learn right where you learn best. In your own work environment. Our virtual workshops enable you to learn a little and apply a little each day. Learn. Do. Check. Repeat. The process works extremely well.

The following Virtual Workshops will be available March 1, 2019. No schedule is necessary. You will be able to sign up at any time and complete the courses on your schedule. Visit our website to sign up.

Master six core leadership skills while engaging in a powerful and innovative learning experience that provides tools, interaction, support, and practice within the context of your actual role as a leader.

- Own Your Role
- Build Relationships
- Interact with Impact
- Coach for Success
- Build Your Team
- Lead Through Change

A series of six online lessons that you complete on your schedule. Application packets allow you to practice and apply skills and tools between sessions. Interact with your learning facilitator at any time during your learning experience.

Five Climbs provides a powerful learning experience that blends formal training, personalized coaching, group learning, agile technology, and everyday work into one integral leadership development process.

- Overview Session
- Climb 1: Lead Self
- Climb 2: Lead Relationships
- Climb 3: Lead Teams
- Climb 4: Lead Organization
- Climb 5: Lead Culture

A series consisting of an overview session and then five “climb” sessions. Complete each session and then use the tools and templates in your actual work environment. The learning is in the doing - on the job. Engage your coach and facilitator along the way.

Organize yourself, your work, your workspace, and your time. Learn key tips for creating focus, doing less, accomplishing more, and spending less time doing it all. This series will provide you with practical tools that you can begin using immediately on the job.

- Overview
- Gain Clarity
- Increase Accountability
- Improve Workflow
- Maximize Workspace
- Optimize Work Time
- Execute for Success

A series of seven online lessons that you complete on your schedule. Use the tools and templates immediately to enhance productivity within your job. Contact your facilitator at any time during your learning experience.

Take ownership for your future today! Every day further defines your career. Is it shaping up the way you want it to? Don't leave your career to chance. This hands-on Virtual Workshop will help you learn about the process, the people, and the resources involved in owning your career.

Manage the people side of projects. This Virtual Workshop provides a proven roadmap and set of tools for leading projects. Through our “learn and apply” process, you receive practical tools and templates to create focus, unite your team, manage stakeholders, and resolve people issues related to work projects.

- The People Side of Projects.
- Definition and Focus.
- Planning and Team Building.
- Execution and Accountability.
- Completion and Closure.
- Project Toolbox.

Complete the online lessons. Apply what you learn to actual projects you are working on. Download online tools and templates. Interact with your learning facilitator at any time during your learning experience.

Web Discussions

By Learning Point Group

Throughout 2019, Learning Point will hold a variety of engaging web discussions on relevant leadership topics. These discussions are live and will involve key thought leaders, authors, and practitioners. Offer your ideas, ask questions, or just listen in. Each web discussion will last approximately 50 minutes.

Web discussion topics will include those listed below. Check our website for upcoming web discussions, their dates and times. You will also be able to register for each scheduled web discussion on our website as well.

Learning Point's LEADERSTREAM LIVE provides sound wisdom and insight from real-time leaders in the workplace. Each episode focuses on a new relevant topic.

Attend live web discussions with workplace leaders, thought leaders, authors, and story tellers. Ask questions. Receive useful links, tools, tips, and templates.

- Attend live or listen to the recordings.
- Interact with thought leaders, authors, and story tellers.
- Ask questions and share insights.
- Receive useful links, tips, tools, and templates.
- Network and partner with other workplace leaders.

Learning Point's LEARNING LEADER FORUM provides the ideal platform for learning professionals to gain and exchange insights and inspiration on organizational learning.

If you believe that learning and leadership go hand in hand, that learning should be a strategic consideration, and that you can make a difference within your role as a learning leader, you will find these the Learning Leader Forum to be a very valuable investment.

- Assess the learning capacity within your organization.
- Focus and unify your senior leadership team toward learning as a business strategy.
- Create a shared vision and philosophy for learning.
- Incorporate day-to-day coaching into your learning strategy.
- Learn and share best practices in learning.
- Network and partner with other learning leaders.
- Measure and track the return on learning investment.

Learning Point's STRATEGIC LEADERSHIP DISCUSSION focuses on raising the level of leadership within the workplace. These virtual discussions provide a roadmap and set of tools for strategically developing leadership throughout the organization. If you believe that leadership is crucial to your organization's success and that it should be a strategic consideration, you will find these web discussions to be extremely refreshing and valuable.

- Assess the leadership strength of your organization.
- Focus and unify your senior leadership team.
- Create a shared vision and philosophy for leadership.
- Provide consistent and ongoing coaching to leaders at all levels.
- Build and sustain sound systems for supporting leadership.
- Facilitate learning, applying, and mastering core leadership skills and practices.
- Measure the results of a strategic leadership system.

Learning Point's LEAD with SAFETY web discussions are uniting a wide spectrum of workplace leaders toward the common goal of creating and sustaining cultures of safety.

If you believe that people are the vitality of your organization and that safety leadership is an essential business strategy, you will find valuable information in these straightforward and practical conversations.

- Create and sustain an environment conducive to safety.
- Use safety as a platform for developing leadership at all levels.
- Engage "leaders in the trenches" to own, influence, and account daily for safe behavior and safe work practices.
- Productively prepare for and hold coaching discussions where safety is the central focus.
- Foster a discipline for safety that drives results in quality, productivity, cost, and morale as well.

Learning Point's WORKING STYLES web discussions will provide insights and practical tips for understanding your own style and that of those you lead. Seek first to understand, then to lead. The discussions will refer to the top tools and instruments for understanding work styles, including MBTI, DiSC, and others.

- Know your own working style.
- Understand the working styles of others.
- Learn tools and techniques for understanding working style.
- Hold focused discussions on working style.
- Adjust your style to match the needs of those you lead.

Learning Point's LEADERS & TECHNOLOGY web discussions will provide current, fresh, and practical information for workplace leaders on how to maximize technology without becoming a slave to it. No geek speak is required.

Technology can provide you game-changing breakthroughs, yet also create costly tripfalls. Your hosts and technology guests will build tech awareness, inspire tech wisdom, and show you how to learn new tech quickly and effectively.

- Build awareness on the latest technologies and tools.
- Learn quickly and efficiently how to master key technologies.
- Save time and money.
- Avoid costly technology pitfalls.
- Experience huge gains in productivity.
